SUMMARY

Software Engineer focused on building reliable backend systems and practical software solutions. Experienced in developing application services, integrating systems, and solving real-world technical problems. Able to contribute to a team by building scalable solutions, improving workflows, and turning business requirements into working applications.

TECHNICAL SKILLS

- Java
- Spring Boot
- Node.js, Express.js
- Apache Kafka
- Liquibase
- SQL
- Docker
- Git
- GitHub Actions (CI/CD)

TOOLS

- Keycloak
- OpenTelemetry
- N8N
- PostgreSQL, MySQL, MongoDB

EDUCATION

BANNARI AMMAN INSTITUTE OF TECHNOLOGY — 2022 - 2026

B.E - Computer Science and Engineering

8.0 CGPA

SARATHA MATRIC HIGHER SECONDARY SCHOOL — 2020 - 2022

Higher Secondary School Certificare

90.33%

SARATHA MATRIC HIGHER SECONDARY SCHOOL — 2019 - 2020

Secondary School Leaving Certificare

97.60%

WORK EXPERIENCE

GROOTAN TECHNOLOGIES PVT LTD — FEB 2026 - JULY 2026

Full-Stack Development Intern

- Developed and maintained backend applications using **Java and Spring Boot with JPA/Hibernate and PostgreSQL**.
- Implemented event-driven communication and **asynchronous workflows using Apache Kafka**.
- Integrated **Keycloak as an IAM** solution for centralized user authentication, role-based access control, OAuth2/OIDC flows, and JWT-based authorization.
- Managed database schema changes and **version control** using **Liquibase**.
- Containerized backend services with **Docker** and managed builds using Maven.
- Contributed to feature development, exception handling, debugging, logging, and code reviews. Collaborated with cross-functional teams to deliver reliable and scalable backend solutions.

FUNDAMENTAL SKILLS

- Linux
- Computer Networks

CO-CURRICULAR ACTIVITIES

Competitions

- Secured Third Prize in **IDEATHON**, conducted by Bannari Amman Institute of Technology in 2024, for "Producing Water Through Air Humidity."

Mentoring & Teaching

- Conducted **Java and Web Development** classes for junior students, helping them build their programming fundamentals and practical development skills

Certifications - Udemy

- Java, Spring Boot 4, Spring Framework 7
- Apache Kafka
- Liquibase
- N8N

HOBBIES

- Short-film Direction
- Script and Poetry Writing

BANNARI AMMAN INSTITUTE OF TECHNOLOGY

Software Intern — SEP 2026 - CURRENT

Developing a **Placement Drive Management System** to streamline placement activities, student eligibility tracking, and recruitment workflows.

Working on the **Academics ERP system**, contributing to the development of the **Controller of Examinations (COE)** module to streamline academic examination processes.

Utilizing React.js, Node.js, and MySQL for frontend development, backend API development, and database management.

PROJECTS

Secure AI Chat with PII Redaction

Developed a **privacy-focused AI chat** application that extracts text from images using **OCR**, automatically redacts **sensitive information (PII)**, and securely interacts with a local LLM. Implemented chat session management, image processing, and secure backend APIs.

AI-Powered Property Maintenance Management System

Developed an AI-powered property maintenance platform using **ERPNext, ThingsBoard, Flowise, Activepieces, and OpenWebUI**, integrating **IoT monitoring, automated workflows**, AI-driven issue analysis, and **RAG**-based assistance. Used built-in **MCP integration** for data retrieval, external service communication, and automated maintenance ticket processing.

TrustLocal — Local Service Booking Application

Developing TrustLocal, a **location-based marketplace connecting customers** with verified local service providers. **Implementing service discovery, booking management**, real-time chat. Building provider verification, **flexible billing, and work-completion receipts**, along with an admin dashboard for user management, provider approvals, bookings, reviews, and support tickets.
